CS2 – Task 6: Scrum Setup

Prof. Dr. Jürgen Vogel (juergen.vogel@bfh.ch)
Prof. Urs Künzler (urs.kuenzler@bfh.ch)

Scrum Setup (1)

From now on, your team will work in Scrum mode. Roles are
- developers = you
- Scrum master = the most experienced developer of your group
  - you may also alternate per Sprint
- product owner = Vogel / Künzler

Based on your project results so far, conduct a
- product planning meeting, resulting in a product backlog that reflects
  - user requirements and scenarios
  - priorities defined in consensus with the product owner
- sprint planning meeting, resulting in a first overall sprint backlog
  - translate product backlog items into low-level implementation tasks
  - plan your first sprint only
    - 3 sprints in total
- for both, use the xls template provided

Scrum Setup (2)

Resource Planning
- 24 working hours/team member in total until the end of the semester
- sprint 1: 9 hours/team member
- sprint 2: 9 hours/team member
- sprint 3: 6 hours/team member

Presentation of results: 03.05.19 (last unit), 5 min per team
- 10 points for documents

Hints
- keep your project diary up to date
- place all work results in your repository under path `...\doc\task06\`
